2. Disclosure on the Issuer's core products and services.

In 2015, the Issuer continued a strategy involving a systematic change of their sales profile – increasing revenues from the integration of systems and the sale of proprietary products and services using a new approach to selling ICT solutions (outsourcing, cloud, SaaS, ITaaS). To this end, the product and service range was consolidated, choosing those that promise multiple sales in markets addressed by the Issuer and those that make use of own resources to the maximum, including the Company's Data Center. The chosen products and services are offered by all the sales departments of OPTeam, across all the markets where it operates.

As the integrator, the company focused its commercial activities on the following products:

Comarch ERP – a group of ERP systems (Optima, XL, Altum) addressed to the business market, including complete implementations in small, medium and large enterprises starting from the project, through delivery and implementation to service and maintenance. Systems contain complete modules supporting the following areas of an enterprise: logistics, accounting, manufacturing, HR and payroll, business intelligence, etc.

Unit4TETA –ERP system dedicated mainly to universities sector (Teta EDU line), the product includes the following functionalities: logistics, accounting, HR and payroll, etc.

It should be especially highlighted, that a rich functionality of HR and payroll module constitutes an important competitive advantage in this market.

The company based its sales on the following proprietary products and services:

OPTiCAMP – electronic identification systems in education.

The OPTicamp product group includes electronic student ID cards at various levels of education (secondary, tertiary, postgrad) with campus functions i.a. access control, logon to computer labs, digital signature (PKI), handling micropayments, printing self-service, library ID, questionnaire and exam functions. These systems handle all the stages in the life of a smart card identifying a student and, with extra functions, facilitate university/school life.

OPTiPASS –corporate smart card system.

In this system, the employee smart card plays a range of functions, according to the competences assigned in the organisational structure. Available functions: access control, recording work attendance, reception services, digital signature (PKI, SSO), accounting for printouts and photocopies, handling micropayments and other.

OPTiRCM (ang. records and case management) - tools for optimising administrative processes in an organisation. They include document management (i.a. registers of invoices, contracts, offices), solutions for secure document storage and archiving. OPTiRCM may be integrated with ERP-class systems, including SAP.

OPTiCOMMERCE - a B2C-class solution, e-commerce system, sold in the SaaS model (Software as a Service). OPTiCOMMERCE enables the user to organise and run a large, advanced online store – product, order and warehouse management, with comprehensive logistics and customer relations. System is compatible with ERP systems, including SAP, Comarch CDN XL, Comarch Altum.

ERP-specific industry systems

This product group includes proprietary systems providing extra functionalities to the ERP systems implemented by the Issuer:

- construction projects management – OPTibudowa
The functionalities of OPTibudowa include: bid and tender management, negotiation management, cost estimation, work scheduling, document filing, equipment and transport base management, progress tracking for consistence of the construction process with the cost estimates by project manager, recording work attendance and resources at building sites up to completing final project accounts
- manufacturing process management – OPTiprodukcja
The system supports manufacturing processes in enterprises using bar code technology at every stage of the manufacturing process. The application comprises: Technology Generator, Manufacturing Execution and Total Production Cost Calculator.
- HR and payroll process management (HR OPTiCenter, HR BPO) – a solution for business sector, software dedicated to handling HR and payroll processes in an outsourcing model – it includes industry-related areas – employee portal, e-files, etc. It constitutes a complete offer for medium and large enterprise sector – as an option for a substantial reduction of HR area costs in a company.

Integration and implementation services

Integration & implementation services include design, development, implementation and maintenance of comprehensive ICT solutions, as well as ICT system management services. Projects executed in this scope apply to the areas of: ICT security (data storage, internet and uninterruptible power supply). This category includes implementation services of third-party ERP systems, in particular ERP system implementations in business and education markets.

Maintenance & post-sales services

The Issuer provides maintenance services to a large group of clients (several hundred entities). Apart from the assistance in systems maintenance (help-desk), updating software, and provision of IT services, this category includes a great variety of additional services resulting from the current usage of the systems as requested by clients.

Data Center services (OPTiCPD)

The services provided by the Issuer's Data Processing Centre include: delivering proprietary products in the SaaS model (Software as a Service), third-party system hosting/colocation, development of backup centres, email services, lease of software in a service model.

Training services

The Issuer's training services include trainings provided as part of the integration and implementation projects and those provided by the Issuer's Training Centre – having the status of Microsoft training centre

In 2015 OPTeam SA conducted development works in terms of B2B OPTIbud project.

Developed product is a solution dedicated to the construction industry in a broad sense (general construction, roads, railway, installations).

OPTIbud system supports management of processes taking place in an enterprise. The system may work independently from ERP-class systems, but also, owing to developed integration mechanisms, it may be integrated with various ERP-class systems.

In 2015 the Issuer did not make capital investments.

7. Disclosure on significant transactions concluded by the Issuer or its subsidiary with related parties not at arm's length.

Information about transactions concluded by the Issuer with related parties is disclosed in the Notes to the financial statement for 2015. Note no 31. The transactions were concluded in line with the arm's length principle.

8. Description of significant risk factors and threats, including the extent of exposure.

8.1. Risk related to the effect of macroeconomic situation on the Issuer's operations

The Issuer's financial situation depends on the economic situation in Poland and worldwide. The financial results generated by the Company are affected by: GDP growth rate, inflation rate, unemployment rate as well as government fiscal and monetary policy and changes in consumption. These factors exert a strong influence on purchases of ICT products. There is a risk that if the economic situation in Poland or worldwide deteriorates in the long term, consumer demand drops or the government introduces economic policies that might have a negative impact on the Company's market standing. The financial results it generates may decline.

The Issuer's bidding activity in business sectors where the influence of macroeconomic factors does not impact heavily on investment decisions, as well as product and market diversification, should limit the potentially harmful consequences of macroeconomic factors on the Company's operations. The Issuer is exposed to this risk at a medium range.

8.2. Risk related to technological changes in the sector and new product development.

The IT sector is characterised by the fast development of solutions and technologies, hence the product life cycle in the market is relatively short. The Issuer's operations depend to a large extent on the ability to apply cutting-edge technological solutions in its products and services.

There is a risk that new solutions may appear in the market that will cause the Issuer's products to become unattractive and fail to ensure the receipts anticipated during design and development stages. Moreover, there is a risk that new technological solutions designed or developed by the Issuer now or in the future fail to achieve the expected parameters, which would have a negative impact on the Issuer's ability to recover the costs incurred.

The Issuer analyses the new emerging market trends in IT technologies and product development and their potential applications. They also establish and maintain trade relations with key customers. These relations underlie activities aimed at adjusting the offered products to customer expectations. Staff are trained on implementing new IT solutions. The Issuer makes efforts to maintain the high technological level of its proprietary products and services, continually expanding the scope of functionalities and applications and due to this the threat resulting from this risk is minimal.

8.3. Risk of industry consolidation.

Consolidation processes in the IT sector help reinforce the market position of several largest businesses, limiting growth potential of small and medium-sized enterprises in the ICT market. The strongest domestic businesses strive to take over weaker enterprises, especially from the SME sector, providing to niche segments of the IT market. As a result, the largest businesses expand their competences and gain access to new customer groups. If consolidation activities intensify significantly, the Issuer may lose its market position, which may lead to a decline in sales and financial performance of the Company.

The Issuer's Management Board anticipates dynamic growth of activity due to the development works completed in preceding years. The Issuer makes full use of the modern infrastructure and technological solutions available at the Design Center of Modern Technologies OPTeam S.A. in Tajęcina (currently, the Company's seat). The ongoing activities related to the development of proprietary products and building new skills in specialist services should help change the profile of Company sales towards increasing the share of proprietary products and specialist services.

The Company continues to expand geographically operating in three branches: in Warsaw, Lublin and Cracow. Their goal is to reach out to new customer with the Company's full product and service range. The Issuer is also open to taking over smaller businesses from the sector to expand its offer and scope of activity.

In the coming years, these activities should improve the rate of return on sales and increase the scale of operations, which should translate into increasing the Issuer's investment appeal, hence the threat resulting from this risk is small.

8.4. Risk of competition.

Poland's presence in the structures of the European Union brought new players into the Issuer's playing field, operating on an international scale. Those entities are not the Issuer's main competitors, however, due to a better knowledge of the domestic market, Polish companies pose a bigger threat to its competitive position. There is a risk of intensified competition in the Issuer's business segments, and if the Investor's response is not quick enough, it may lead to loss of market share, decline in sales and performance.

The Issuer is moderately subject to the risk related to competition's operating. It should be highlighted that by having a numerous group of regular trade partners and a very flexible process of production and system implementation, as well as due to the adopted growth strategy, the Issuer should be able to considerably limit the effects of enhanced competition in its market.

8.5. Risk related to the suppliers' changed commercial terms.

Within the IT system integration area, the Issuer supplies equipment and technologies from manufacturers which can be regarded as global market leaders. The bargaining power of those companies is often incomparably stronger than the Issuer's, and terms of cooperation with customers are usually determined centrally and are non-negotiable. In the Issuer's experience, an unfavourable change in the terms of cooperation with equipment and technology suppliers may not be transferred directly to the terms of cooperation with the Company and its customers. As a result, the Company's rate of return and liquidity may deteriorate, in spite of the supplier diversification policy in place.

8.6. Risk related to IT projects executed by the Issuer.

The scope of the Issuer's operations includes providing IT services, particularly with regard to integration of advanced IT solutions, systems based on smart card technologies, ERP systems. Agreements concluded between the Issuer and its clients provide for the Issuer to execute certain activities comprising an IT project. In each project, proper cooperation is necessary between the project team originating from the Company and employees delegated by the service buyer. This generates a certain risk of human error. On the one hand, the conditions and circumstances of the service may be defined incorrectly by the service buyer's team, and on the other, the Issuer's staff may take an inappropriate approach. As a result, they may fail to deliver the right solution to the service buyer. This may lead to the latter incurring losses and consequently claiming damages from the Issuer, prolonging the involvement in the IT project, delaying payment. Such steps may have a negative impact on the Issuer's situation, hence the threats resulting from this risk are qualified as a medium ones.

To minimise this risk factor, procedures have been put in place and are applied consistently in project management and project execution monitoring, including project finance, using implemented software. The Issuer has implemented such tools and continues to develop them. At present, further works are pending, aimed at correlating the project management solutions with the product structure offered by the Company.

8.7. Financial instruments exposed to price, credit and other risks.

The Company is not significantly exposed to risks related to financial instruments, seen as the main financial instruments as of the date of the report were cash in the Polish currency, trade and other receivables, shares in Polish ePayment, as well as liabilities under trade, loans, leases. Taking into account the above, due to a little range of transactions in foreign currency, the risk related to currency is insignificant.

The Issuer has contingent liabilities under guarantee for liabilities of the affiliated company Centre of Electronic Clearance Polish ePayment with its seat in Rzeszów. In the surety agreement, the Issuer consented to extend a joint guarantee with the second shareholder of Polish ePayment, Polish Security Printing Works [Polska Wytwórnia Papierów Wartościowych SA] for liabilities of Polish ePayment towards one of its suppliers. There is a potential risk that grounds may emerge for the Bank to exercise their rights under loan sureties. According to the Issuer's Management Board, looking at the potential of Polish ePayment and the business ratio analysis of its operations, that risk is insignificant.

9. Identification of proceedings at court, arbitration bodies of proper jurisdiction or public administration bodies.

Throughout the period covered by this Report, OPTeam S.A. was not involved in proceedings at court or another body regarding liabilities or debts, whose individual or combined amounts would reach at least 10% of equity.

The only case in progress against OPTeam S.A. was brought in by Centrum Elektronicznych Usług Płatniczych eService S.A. with its seat in Warsaw, to establish intellectual property rights to payment terminal software developed by OPTeam S.A. The case was closed on 12.05.2015 with amicable settlement. The reached settlement satisfies all claims of the parties related to the proceedings before Regional Court in Warsaw 20th Commercial Law Division ref. no.XXGC 287/11. The results of the settlement were appropriately taken into consideration in the financial statement drawn up for 2015.

As of 31.12.2015 there are no long-term liabilities under borrowings.

11. Disclosure on loans, securities and bond issued and received in the course of the business year.

Contingent liabilities comprise insurance bonds granted to the Company and bank sureties related to performance bonds and bid bonds. These bonds and sureties are temporary and result respectively from the terms of the product supply agreement and requirements of the tendering procedure. The Company predicts that the bonds and sureties in question will

not have to be activated, except for the case of using the guaranteed sum (from insurance bond) in January 2015 in relation to purchaser's withdrawal from the agreement, however in this case the total amount of paid guaranteed sum was returned to OPTeam by the subcontractor.

Guarantees extended

OPTeam SA has contingent liabilities under guarantee for liabilities of the affiliated company Centre of Electronic Clearance Polish ePayment with its seat in Rzeszów. By signing the surety agreement, the Issuer consented to extend a joint guarantee with the second shareholder of Polish ePayment, Polish Security Printing Works [Polska Wytwórnia Papierów Wartościowych SA] for liabilities of Polish ePayment towards one of its suppliers.

Entity	Regon	Type of liability	Amount of liability (PLN)	Period from - to
Centre of Electronic Clearance Polish ePayment with its seat in Rzeszów - security for the payment of debt to Kolporter Sp. z o.o. under goods supply agreement for PeP, concluded on 22.04.2013	180523400	guarantee of liabilities	Surety up to PLN 7 000 000	From 22.04.2013 up to 12 months after the due date of the final invoice issued by Kolporter Sp. z o.o.

In 2015 and during the period from 1 January until the date of approval of the financial statement for publication, Centre of Electronic Clearance Polish ePayment met its obligations on a regular basis.

In the financial statement as of 31 December 2014, the Issuer presented loan surety agreements for the Centre of Electronic Clearance Polish ePayment SA. The Issuer extended a joint surety with Polish Security Printing Works SA as a second shareholder of Polish ePayment for the loan granted by ING Bank Śląski for Polish ePayment. In relation to the total repayment of liabilities resulting from concluded loan agreements by Polish ePayment, the surety granted by OPTeam SA expired.

12. Disclosure on how the Issuer used proceeds from the issue of securities in the period covered by the report.

In 2015, the Issuer did not issue shares or bonds.

13. The Management's Board position on the viability of previously published performance forecasts.

The Company did not publish forecasts for 2015.

14. Management of financial resources.

In 2015, the Issuer had financial resources – own funds and an investment loan, investment subsidies, allowing it to fully meet its financial liabilities, without the risk of losing financial liquidity.

15. Investment plan viability assessment, including capital investments.

In 2015, OPTeam S.A. did not execute capital investments. Outlay on replacement investments included the acquisition of tangible assets (IT equipment, furnishing, vehicles) and software licences.

16. Evaluation of extraordinary factors and events affecting the business result for the business year, including the extent of influence of those extraordinary factors or events on the generated result.

In the course of the 12 months ending 31 December 2015 there were no extraordinary events which would have a significant impact on the result of operations of OPTeam.

17. Characteristics of external and internal factors significant to the development of the Issuer's enterprise and a description of the Issuer's development outlook at least up to the end of the business year following the business year for which the financial statement was drawn up.

In 2016 a range of programmes based on financing investments with European Union funds are planned to be launched. It is also related to investments in IT infrastructure, which prospectively may result in gaining new customers by the Issuer, hence increasing sales revenues.

However, macroeconomic uncertainty translates directly into customers reducing their IT budgets. It has a significant impact on competitive activities and hinders attracting new clients, especially with regard to large IT projects. OPTeam participates in tendering procedures for those projects, and despite competing with large integrators, often manages to win such contracts, which helps reinforce the company's standing in the sector and its perception as a reliable integrator with a high project execution potential. OPTeam's offer in this scope is very competitive compared to other suppliers, because the company has lower operating costs within the Subcarpathian Science and Technology Park (SEZ EURO-PARK Mielec).

In 2015, the Management Board, in response to market expectations, undertook steps in terms of research and development aimed at expanding the service range and reinforcing the sales of proprietary products and services, as well as reinforced the company's potential as an integrator – by expanding the product portfolio and building new competences (Teta, USOS).

The scope of the Management Board activities in 2015 included product portfolio reorganisation in terms of market opportunities, focusing on products and services which have the highest potential for repeated sales using the potential of the Company's own Data Center in all the markets where the Company is present.

Boosting the sales of products in the cloud computing service model, making use of the already available Data Center infrastructure will have a favourable influence on the stability of sales in consecutive years and gradual increase of generated profit.

The strategy for boosting the sales of proprietary products and services with the use of modern sales models (cloud. SaaS, ITaaS) across all markets will be continued.

According to the Issuer's Management Board, in 2016 considerable growth opportunities for the Company emerge in IT projects in the markets of energy, tertiary education and business, where the company apart from the EU subsidiaries proposes other financing models and reorganization of the offer according to the market requirements.

The Company performed several financially significant contracts in 2015. They provide for implementations of proprietary systems, ERP systems and integration services. In the business sector, too, the order portfolio for ERP implementations is substantial.

An important element in building the Issuer's value, in the opinion of the Management Board, is the development of the Centre of Electronic Clearance Polish ePayment. The Company, in which the Issuer holds a 50% stake, continues a dynamic growth in terms of expanding the range of its customers.

In the first years of business at Polish ePayment the priority was to build the operational potential, which entailed significant costs and investment outlay. In subsequent years, the Company intends to keep actively expanding the acceptance network and acquire new terminals with high uptake dynamics. Taking this into account, as well as an offensive strategy of building a terminal network and the Company's innovative products, the forecasts of dynamic increase of all the parameters at PeP in the future seem completely reasonable. The year 2015 was very favourable for PeP both in terms of expanding the market, as well as achieved positive financial result.

The Issuer informed in current reports published in 2015 that intended to take part in bidding procedure for repurchase of Polish ePayment shares from Polish Security Printing Works. In this scope, the Issuer cooperates with Innova Investments LLC fund. Investment cooperation on repurchase of Polish ePayment shares is aimed at building a strong group offering electronic payment services.

18. Changes in basic management principles of the Issuer's enterprise.

In 2015 there were no changes in the ways of managing the Issuer's business. OPTeam SA operates via 3 operating divisions supported by shared services departments. The first two divisions are commercial. The Institutional Sales Division deals with sales mainly through public tendering procedures. The other commercial unit – the Business Sales Division, focuses on the business sector, including industrial enterprises. The third operating division is the Project Execution Division. It comprises all of the software development and implementation resources related to project execution.

19. All agreements concluded between the Issuer and management officers, providing for compensation in the event of resignation or dismissal without cause, or if their dismissal or termination is due to the Issuer's consolidation through acquisition.

In 2015, the Issuer did not conclude agreements with management officers, providing for compensation in the event of resignation or dismissal without cause, or if their dismissal or termination is due to the Issuer's consolidation through acquisition.

20. Remuneration, bonuses or benefits, including under incentive or bonus programmes based on the Issuer's capital for management and supervisory officers.

Information regarding remuneration, specified separately for each management and supervisory officer of the Issuer, is presented in the Notes to the financial statement for 2015 – Note no 32.

21. Specification of the total number and nominal value of all of the Issuer's shares as well as shares in the Issuer's related parties, held by management and supervisory officers (individually).

As of 31.12.2015. OPTeam S.A. shares were held by the following management and supervisory officers:

As of the date of this report the number of shares held by supervisory and management officers did not change.

22. Disclosure on agreements known to the Issuer (including those concluded after the balance sheet date), which may in the future lead to changes in the stakes held by current shareholders.

The Issuer's Management Board has no information on agreements (including those concluded after the balance sheet date), which may in the future lead to changes in the stakes held by current shareholders.

23. Disclosure on the control system of the employee stock ownership plan.

In 2015, the Issuer did not implement an employee stock ownership plan.

24. Representation of the Management Board regarding corporate governance.

In 2015, the Company complied with the principles of corporate governance collected in the Code of Best Practice for WSE Listed Companies, adopted on 19.10.2011 and on 21.11.2012 by the WSE Supervisory Board. The content of Best Practices is available on the web page of the Warsaw Stock Exchange in the section: <http://corp-gov.gpw.pl/publications.asp>

At the same time, the Issuer announces that following the entry into force of "The Code of Best Practice for WSE Listed Companies 2016" (hereinafter DPSN 2016) which is available at the web page of the Warsaw Stock Exchange at https://www.gpw.pl/lad_korporacyjny_na_gpw, submitted a statement on applying respective recommendations and principles of DPSN 2016. Pursuant to the WSE interpretation, in the annual statement for 2015 the Issuer refers to the principles of corporate governance effective in 2015, however submits the aforesaid statement on applying DPSN 2016 in the document of annual statement for 2015.

24. 1. Identification of corporate governance principle that the Issuer does not observe on a permanent basis

24.2. Characteristics of the internal control and risk management systems in place at OPTeam SA with regard to the process of drawing up financial statements and consolidated financial statements

The internal control system at OPTeam S.A. is the basic tool ensuring a reliable assessment of operational risk. It provides information and financial data underlying the financial statements. Responsibility for the system lies with the Management Board. The internal control system is based on the following structure:

1) Verification of budget assumptions.

The Company draws up an annual financial plan which is comprised of budgets prepared by individual operational departments. Compliance with budget assumptions is verified periodically by the Company's Management Board. At that time, measures are undertaken well in advance in order to limit or eliminate the risks to the execution of the assumed budget parameters.

2) Division of powers and responsibilities.

The Company has clearly divided powers and responsibilities. The Management Board verifies on an ongoing basis whether individual organisational units fulfil their obligations.

3) Verification of financial statements by independent external auditors.

Pursuant to the applicable legal regulations, the financial statements drawn up by the Management Board are verified by independent external auditors. Outcomes of the assessment are published.

Taking into account the input data to the risk analysis, the Management Board identifies risks related to the individual areas of the enterprise. Following the risk assessment, conclusions are formulated and decisions regarding the action plan are made. The aim is to eliminate uncertainty and optimally reduce the unfavourable factors which might disturb the organisation in certain areas. Such a verification is also periodically conducted by the Supervisory Board.

Moreover, the Management Board verifies the methods applied by individual organisational units to achieve their goals, their scopes of activities, provisions of internal regulations, procedures and internal normative acts of the Management Board.

24.3. Identification of shareholders directly or indirectly holding significant stakes in OPTeam SA

According to the information available to the Company, as of the publication date of the annual report for 2015 stakes exceeding 5% of the overall number of votes at the General Meeting of OPTeam S.A. were held by the following Shareholders:

Shareholders	Number of shares and votes at the GMS	% share in authorised capital and overall number of votes at the GMS
Janusz Bober	1 372 523	18.80 %
Andrzej Pelczar	1 372 523	18.80 %
Ryszard Woźniak	1 378 512	18.88 %
Wacław Irzeński	1 372 523	18.80 %
Wacław Szary	404 795	5.55 %

In 2015 the Issuer did not acquire own shares. The Company holds 334 own shares, remaining from settlement of transactions carried out in 2010.

The Management Board of OPTeam S.A. discloses that none of the shareholders hold special control powers related to the shares of OPTeam S.A. Nor are there any restrictions on exercising voting rights, or restrictions on transferring security ownership rights, apart from the principles stipulated in the generally applicable regulations on trading in financial instruments.

24.4. Description of rules governing appointments and dismissals of executive officers and their powers, especially the right to decide on issuing or redeeming shares.

The Company's Management Board.

According to the provisions of the Articles of Association of OPTeam S.A., the Management Board consists of one or more members appointed for a joint term of office, Management Board Members, including the President, are appointed and dismissed by the Supervisory Board, which specifies the number of Management Board Members in the given term of office. The mandate of a Management Board Member expires at the latest on the day of the General Meeting approving the financial statement for the last full business year in the course of the given term of office of the Management Board, so whose last day falling on 31 December was within the term of office of the Management Board counted in years from the date of appointment of the first Management Board Member of that term of office. The mandate of a Management Board Member, appointed prior to the end of the given term of office, expires at the same time as the mandates of all the other Management Board Members.

The Supervisory Board may dismiss a Management Board Member or the entire Board at any time. In the event of compelling reasons, the Supervisory Board may suspend some or all Management Board Members. If the entire Management Board is dismissed before the end of the term, the term of the new Management Board runs from the beginning.

Management Board Members may be dismissed or suspended by the General Meeting.

Works of the Management Board are directed by the President of the Management Board. Resolutions of the Management Board are passed by a simple majority of votes. In the case of split votes, the President's vote breaks the tie.

The detailed operating procedure of the Management Board, as well as issues which can be addressed to its individual members, are specified in the Bylaws of the Management Board adopted by the Management Board and approved by the Supervisory Board.

If the Management Board is composed of more than one person, to represent the Company two Board Members must cooperate or a Board Member jointly with the proxy.

To perform specific actions or specific types of actions, individuals may be authorised to act independently or in twos or threes within the scope of their powers. The Management Board keeps a record of the authorisations issued.

If the Management Board is composed of one person, the sole Management Board Member is authorised to make representations and sign on behalf of the Company.

In agreements, including those specifying terms of employment, and in other legal activities and disputes between the Company and Management Board Members, the Company shall be represented by the Supervisory Board. Representations on behalf of the Supervisory Board shall be made by a representative delegated by resolution of the Supervisory Board. The resolution of the Supervisory Board should specify terms of the agreement or legal activity referred to in the first sentence above.

The following issues require resolutions of the Management Board:

- a) to determine the development strategy for the Company and its Group,
- b) to approve the Company's material and financial plans,
- c) to approve the Company's asset and capital investment plans,
- d) to adopt organisational regulations specifying the Company's enterprise organisation,
- e) to decide on establishing or closing of the Company's organisational units,
- f) to approve the annual statement on the Company's operations, consolidated statement on the Group's operations and the annual financial statement of OPTeam S.A, and the Group's consolidated financial statement, in ample time providing for the Supervisory Board to express its opinion on those documents and for the General Meeting to approve them, pursuant to the applicable regulations,

- g) to determine the "Bylaws of the Management Board" and amend them,
- h) to appoint proxies and representatives,
- i) to convene Ordinary and Extraordinary General Meetings, as well as propose agendas and draft resolutions.

The detailed operating procedure of the Management Board is specified in the Bylaws of the Management Board.

Powers regarding decisions to issue or redeem shares, under the Code of Commercial Partnerships and Companies and the Company's Articles of Association, are vested in the General Meeting.

Supervisory Board.

The Supervisory Board exercises ongoing supervision over the Company's operations. According to the Articles of Association, the Supervisory Board is composed of no fewer than 5 and no more than 7 members. Apart from other competences specified in the Articles of Association, particularly Art. 22 section 2 of the Articles, in the Code of Commercial Partnerships and Companies and other legal regulations, the Supervisory Board is obliged to:

- a) once a year, draw up and present to the Ordinary General Meeting a brief assessment of the Company's situation, including the evaluation of internal controls and risk management system,
- b) once a year, conduct and present to the General Meeting a self-evaluation of its work,
- c) consider and provide opinion on issues to be subject to resolutions at the General Meeting.

Apart from issues stipulated in the Act, other provisions of the Articles of Association or resolutions of the General Meeting, the powers and duties of the Supervisory Board include:

- a) to audit the annual Balance Sheet and Profit & Loss Statement and ensure their verification by certified auditors,
- b) to audit and express opinion on the Management Report,
- c) to submit to the General Meeting a written report on activities referred to in items a) and b),
- d) to approve the Company's long-term and annual material and financial plans, as well as asset and capital investment plans,

24.6. Description of principles for amending the Articles of Association of OPTeam S.A.

Pursuant to Art. 26 item 5 of the Articles of Association, a resolution of the General Meeting is required to amend the Articles of Association of OPTeam S.A. The resolution on amending the Articles is passed by a ¾ vote majority.

Operating procedure of the General Meeting, its fundamental powers, shareholders' rights and ways of exercising them.

The Company's General Meeting may proceed as an ordinary or extraordinary meeting.

The Ordinary General meeting is convened by the Management Board no later than within six months after the end of the business year. The Supervisory Board may convene the Ordinary General Meeting, if the Management Board fails to convene it within the timeframe stipulated in the Code of Commercial Partnerships and Companies.

The Supervisory Board or shareholders representing no less than half of the authorised capital or no less than half of the votes may convene the Extraordinary General Meeting. When the Extraordinary General Meeting is convened by shareholders, they appoint the chairperson of that Meeting.

The agenda of the General Meeting is decided by the Management Board. The Supervisory Board and shareholders representing no less than 1/20 part of the authorised capital may demand that particular matters are put on the agenda of the nearest General Meeting.

The demand to put issues on the agenda of the General Meeting should be submitted no later than 21 days prior to the appointed date of the Meeting and should include a statement of reasons or a draft resolution concerning the proposed item on the agenda. Changes in the agenda introduced by request of the shareholders should be announced by the Management Board no later than 18 days prior to the Meeting date in a manner appropriate to convening the General Meeting.

The following issues require resolutions of the General Meeting:

- 1) consider and approve the Company's annual financial statements, annual reports on operations, as well as the Group's consolidated financial statements and Group's report on activities for the prior business year,
- 2) acknowledge the fulfilment of duties by members of the Supervisory and Management Boards,
- 3) decide on distribution of profit and coverage of losses, as well as allotment of funds created from profit,
- 4) appoint Supervisory Board Members and determine rules of remuneration of Supervisory Board Members,
- 5) amend the Articles of Association, including increasing and reducing the authorised capital, unless the provisions of the Code of Commercial Partnerships and Companies or these Articles provide otherwise,
- 6) make any provisions regarding claims for compensation of damage inflicted during establishing the Company or exercising supervisory or management powers,
- 7) consent to the disposal or lease of the enterprise or an organisational unit thereof, and establishing limited property rights thereupon,
- 8) decide on share redemption and consent to the acquisition of shares to be redeemed as well as specify the terms of redemption,
- 9) consent to issuing bonds, including convertible bonds and senior bonds,
- 10) dissolve, liquidate and transform the Company and consolidate it with another company,
- 11) create and dissolve capital reserves and other capitals and funds of the Company,
- 12) approve the Bylaws of the Supervisory Board,

13) enact and amend Bylaws of the General Meeting.

Pursuant to the provisions of the Bylaws of the General Meeting, only people who were shareholders of the company sixteen days prior to the date of the General Meeting (registration date of participation in the General Meeting) are eligible to participate in it.

A person entitled under dematerialised bearer shares of a listed company may request, not before the publication of the General Meeting announcement and no later than on the first working day after registering participation in the General Meeting, that the securities depository should issue a personal certificate of entitlement to attend the General Meeting.

The Company determines the list of shareholders entitled to participate in the General Meeting pursuant to the list provided by the National Depository for Securities (KDPW), drawn up on the basis of personal certificates of entitlement to attend the General Meeting issued by the securities depository.

Proxy rights to attend the General Meeting and exercise voting rights shall be granted in writing or in electronic form. Proxy voting forms are available as of the date of convening the General Meeting on the Company's web site.

Shareholders notify the Company about appointing a proxy in electronic form, using the Company's email address provided in the General Meeting announcement. In the notice, the shareholder should provide their telephone number and email address, as well as the proxy's telephone number and email, by means of which the Company may contact the Shareholder and proxy. The proxy notification should also specify the scope of authorization, i.e. indicate the number of shares under which the voting rights will be exercised and the General Meeting date when they will be exercised.

Alongside the proxy notification in electronic form, the shareholder sends the letter of authorisation, excluding proxy voting instruction, a scan of their personal ID card or of another document identifying the authorising Shareholder and the proxy. If authorisation is granted by a body corporate or an organisational unit without legal personality but with legal capacity, the shareholder shall submit a scan of the register entry wherein it is registered or a scan of another document confirming due authorisation of persons acting on behalf of such an entity.

If authorisation is granted to a body corporate or an organisational unit without legal personality but with legal capacity, the shareholder shall additionally submit a scan of the register entry wherein the proxy is registered or a scan of another document confirming the existence of such an entity.

Notification about appointing and/or revoking a proxy in electronic form should be submitted no later than three working days prior to the General Meeting date. The Company will undertake due measures to confirm the identity of the shareholder and proxy to verify the validity of authorisation granted in electronic form.

The detailed operating procedure of the General Meeting and powers of this governing body, as well as the powers of shareholders and how they can be exercised, are described in the appropriate provisions of the Articles of Association of OPTeam S.A. and the Bylaws of the General Meeting. These documents are published on the Company's website.
